More than a decade ago, NAR launched the REALTOR® Safety Program to educate REALTORS® about the potential risks they face on the job. Being aware of potential dangers and empowering themselves with precautions and preparations will help REALTORS® avoid risky situations on the job, and could mean the difference between life and death.

Knowledge. Awareness. Empowerment. These are the core components of REALTOR® Safety. As part of NAR’s ongoing efforts to keep our members safe, we continue to grow and strengthen the REALTOR® Safety Program with new resources and tools, like REALTOR® Safety Grants for REALTOR® associations, and the REALTOR® Safety Network, which capitalizes on the nationwide system of REALTOR® organizations to notify members across the country of safety concerns and emergencies.

Each year, NAR dedicates September as REALTOR® Safety Month, though we strongly encourage associations, brokerages and members to keep safety at the forefront of their minds every day of the year.

Through the REALTOR® Safety Program, associations, brokerages and members can access a variety of resources including:

- Webinars and videos on REALTOR® Safety, presented by industry experts.
- Shareable content, including weekly social media messaging for associations to easily share with members, and safety discussion topics for brokers.
- Safety materials including forms, protocols and best practices.
- NAR’s annual REALTOR® Safety Survey and Report.

Access these resources and more at www.nar.realtor/safety.
