

The Cape Coral-Fort Myers, FL commercial real estate market is modest compared to the overall market.
NAR Commercial Market Conditions Index: 70.833

The apartment sector is experiencing faster rent growth than nationally.

There is a increase in office occupancy and office rent growth is stronger than nationally.

In the industrial sector, the industrial vacancy rate is lower than nationally and less construction is underway than nationally.

Its retail trade jobs are not growing as fast than nationally.

#N/A

In 2019, the area experienced net in-migration.

Commercial transactions are likely to pick up in the second half of 2021 and in 2022 as more people get vaccinated and more businesses open. Higher fiscal spending and monetary accommodation will boost growth nationally and in the area.
