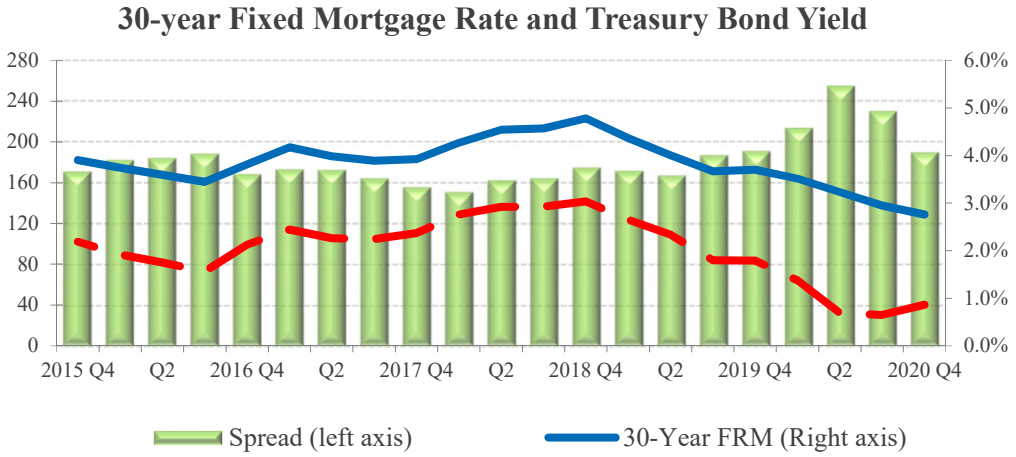
The Mortgage Market



In the fourth quarter of the year, the 30-year fixed rate hit an all-time low, as investors were skeptical about the recovery of the economy from the pandemic. According to the mortgage finance provider Freddie Mac, the 30-year fixed rate mortgage dropped to 2.76 percent in Q4 2020 from 3.70 percent a year earlier. However, mortgage rates are expected to rise in 2021. As COVID-19 vaccine becomes widely available and additional policy support is on track, the re-opening of businesses will likely put upward pressure to prices. Following the trend of the 10-year Treasury yield, mortgage rates will also increase, but only slightly. NAR is forecasting the 30-year mortgage rate to average 3.0% for the first half of 2021.
