2020 Q4 Housing Wealth Gains Report

Gary-Hammond, IN

NATIONAL ASSOCIATION OF REALTORS®

Homeownership and Wealth

Homeownership is associated with higher wealth. In 2019, homeowners' median net worth was $255,000, or 40 times the median net worth of renters of 6,300. Among homeowners, the median value of primary residences in 2019 ($225,000) accounted for 57% of the median homeowners' assets ($393,230).

Median Family Net Worth (in Thous. $)

Year	Homeowners	Renters	Ratio
1989	$199.5	$3.9	51.2
1992	$176.8	$5.8	30.5
1995	$173.8	$8.1	21.5
1998	$207.8	$6.7	31.0
2001	$249.2	$6.9	36.1
2004	$250.4	$5.4	46.4
2007	$289.9	$6.3	46.0
2010	$205.6	$6.0	34.3
2013	$214.6	$5.9	36.4
2016	$246.2	$5.3	46.5
2019	$255.0	$6.3	40.5

NATIONAL ASSOCIATION OF REALTORS®

Methodology

Changes in home prices and principal payments lead to changes in housing wealth.
The National Association of REALTORS® calculated the wealth gains from purchasing a single-family existing home at the median sales price with a 30-year fixed rate mortgage financing and 10 percent downpayment over 5,10,15,30 year-holding periods. Metro area delineations change so data may not be available for some periods. The estimates are illustrative of the typical change in housing wealth; actual gains or losses will vary by property.

Calculation of change in housing wealth(equity) over holding period (n years):
Housing wealth (Equity) = Assets - Liabilities
(1) Housing wealth (Equity) at time of Purchase = Market Value (Sales Price) - Loan
(2) Housing wealth (Equity) at Year n = Market Value at Year n - (Loan -Total Principal Payments)
Housing wealth (Equity) Gains at Year n= (2)- (1)
Housing wealth (Equity) Gains at Year n = (Market Value, Year n - Sales Price) + Total Principal Payments

Calculation of annual percent change in home prices over 30 years:
Compounded annual growth rate=((Market value at n=30)/(Market value at time of purchase))^(1/30))-1

Sources of data:
NAR Median sale price for single-family existing home; Freddie Mac 30-year fixed rate mortgage and fees and points
