**THE REALTOR® SAFETY PROGRAM**

At NAR, member safety is top priority and we are wholly committed to helping ensure that every REALTOR® makes it home safely every day. The REALTOR® Safety Program was created to improve the safety culture in the industry and reduce the number of safety incidents by:

- **Building awareness** of the risks REALTORS® face on the job.

- **Empowering** members to be more prepared with safety protocols in place to reduce their risk.

- **Educating** REALTORS® about safety best practices, and providing them with timely topics, tools, and resources.
