Ratio for 2023 Q4	3.4	3.9	standards and getting worse
Historical Average	2.8	3.4	Affordable compared to most markets

The Mortgage Market

Throughout much of the final quarter of the year, mortgage rates remained elevated near 7.5 percent. According to the mortgage provider Freddie Mac, the 30-year fixed mortgage rate rose to 7.3 percent in the fourth quarter of 2023 from 6.7 percent the previous year. Nevertheless, rates fell below 7 percent at the end of year as the Federal Reserve continued to halt its interest rates hikes. With lower interest rates on the horizon, mortgage rates are expected to continue their downward trend in 2024, thereby enhancing affordability for potential homebuyers.

NAR forecasts the 30-year fixed mortgage rate to average 6.8 percent in the first quarter of 2024, with a further decline expected to bring them below 6.6% by the end of the first half.
