The current way brokerage services are paid prevents a greater cost burden that would be especially devastating for first-time and low-income home buyers.

REAL ESTATE BROKER COMPENSATION STRUCTURE BENEFITS BUYERS AND SELLERS ALIKE

If buyers had to pay real estate broker compensation directly, it would add thousands of dollars to an already costly transaction.

The typical American household has an average of $5,300 in the bank*.

That's barely more than 50% of the median down payment on a starter home, which is $16,100 or 7% for first-time homebuyers**.

Since most lenders don’t allow real estate broker compensation to be financed, every 1% of broker commissions that first-time buyers pay out of pocket would put their home $2,300 further out of reach.
